

Responding to the climate challenge Perspectives for energy providers

Margareth Øvrum, Executive Vice President, Technology & Projects
Ny-Ålesund Symposium
Ny-Ålesund, 20 August 2007

A complex industrial environment

- Security of supply
- Competition for growth
- Capacity constraints
- Climate change

A Nordic energy champion

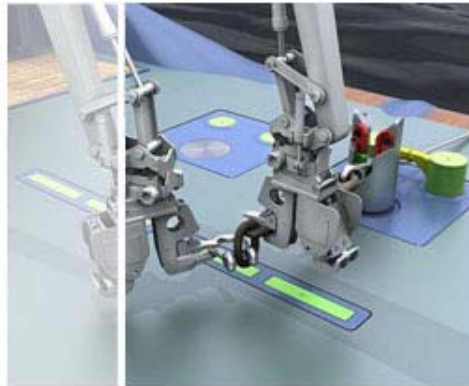

Strong Norwegian platform

International growth positions

Global gas supplier

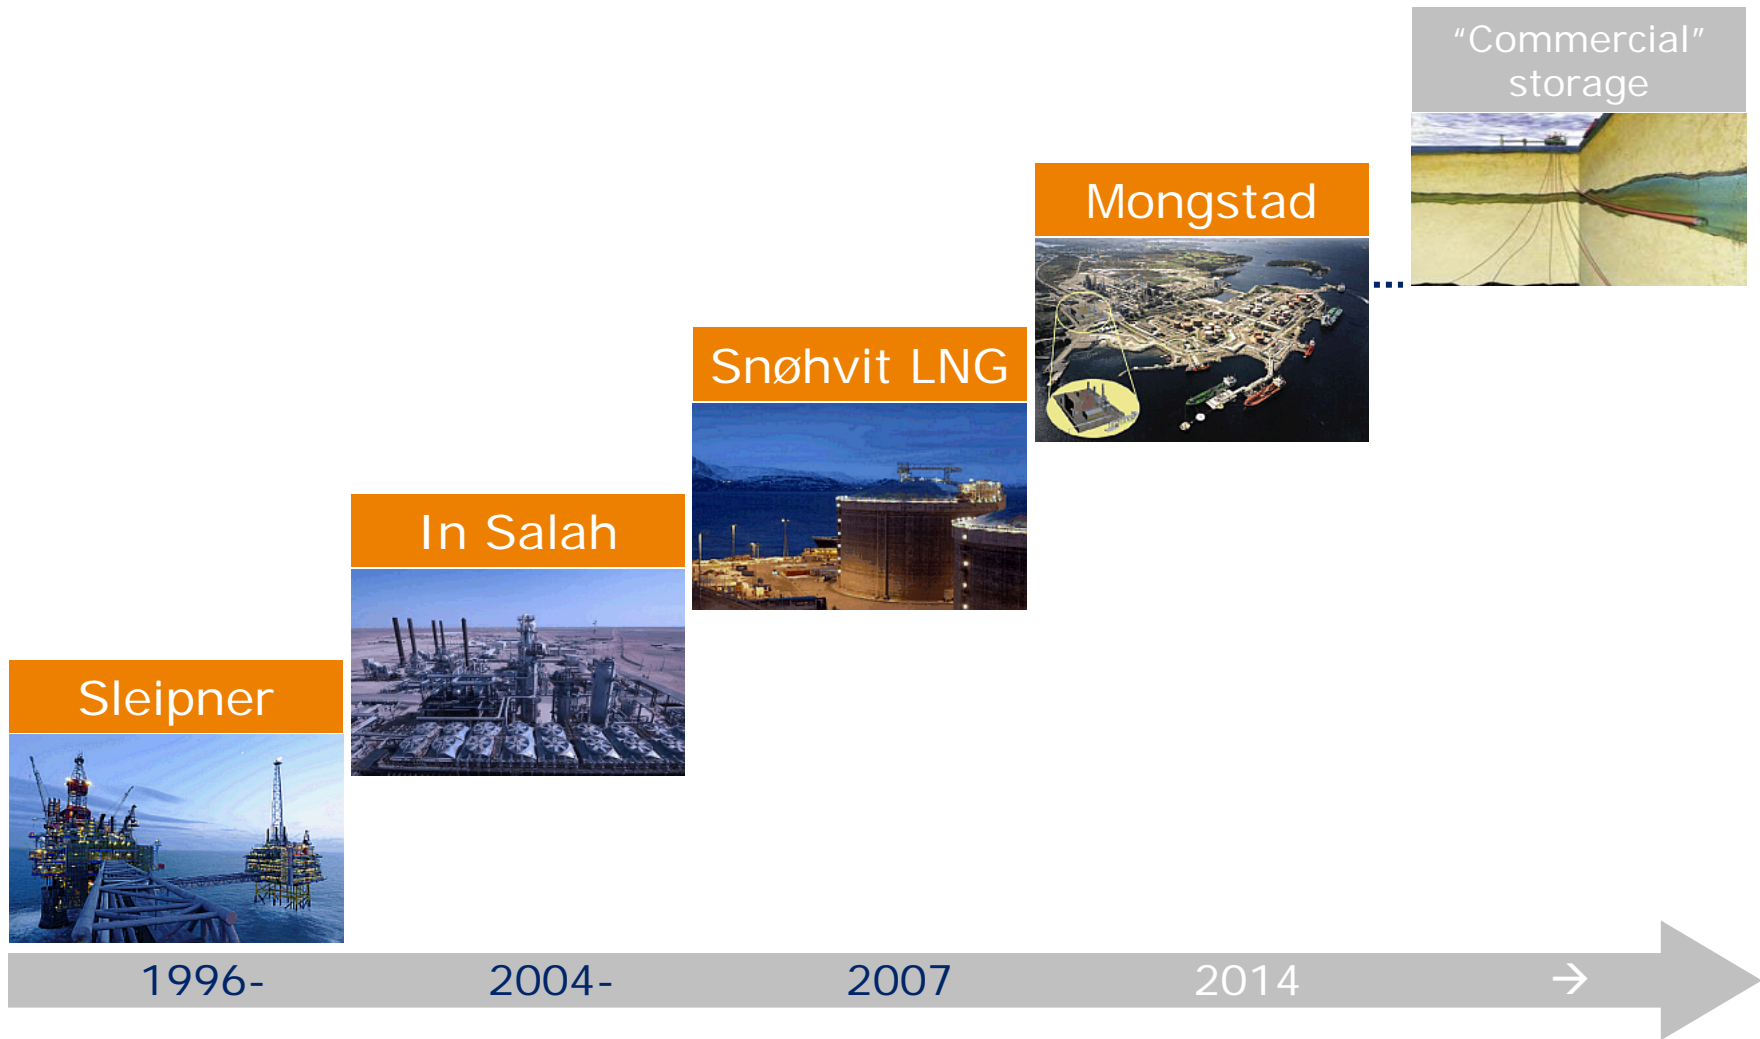

World class technology

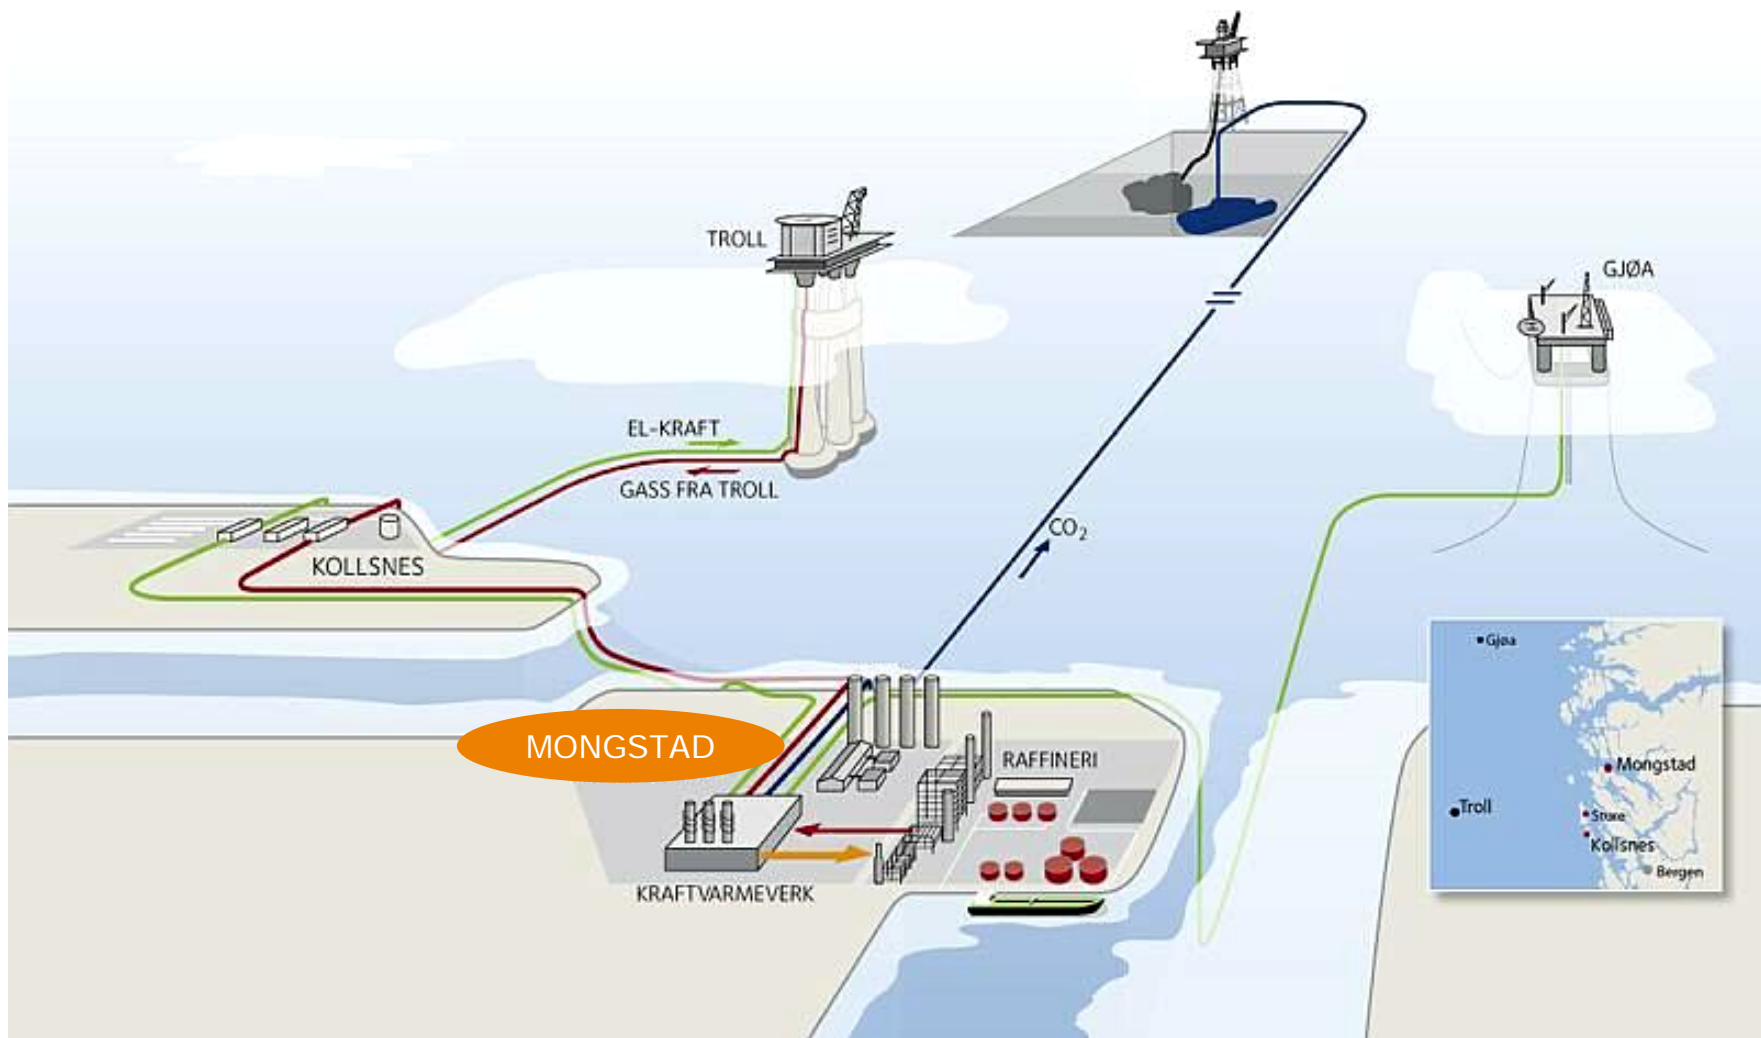

Marketing and manufacturing

Long term commitment

Industrial and environmental frontrunner

An innovative energy portfolio

Biofuel

Energy efficiency

Wind

Hydrogen

Wood pellets

Responding to the climate challenge

Perspectives for energy providers
